Essex Historical Society & Shipbuilding Museum in collaboration with the Smithsonian & Mass Humanities presents:

***Crossroads: Change in Rural America* is a Smithsonian Traveling Exhibit, the first of the Museum on Main Street program to premier in Massachusetts.**

"Crossroads: Change in Rural America" offers small towns a chance to look at their own paths to highlight the changes that affected their fortunes over the past century.

The exhibition prompts discussions about what happened when America's rural population became a minority of the country's population and the ripple effects that occurred.

We aim to explore what the major themes of "Crossroads" - land, community, identity, persistence, and change mean to our small town of Essex and evaluate our past, present and future through a special program of events to accompany the exhibition.
